"Edward has demonstrated a great general knowledge about programming, good common sense, as well as ability to create applications beyond something I'd expect from someone of his age. I highly recommend him for apprenticeship / summer job as I feel he'll be a valuable addition to any team."

"I highly recommend Edward Deakin for any coding related jobs. He is a hard worker who never misses a deadline and gets jobs done quickly. He is also very professional, communicates instantly and is extremely helpful. I am thoroughly impressed with him and he has become an essential part of my server. Thank you, Edward, for your dedication to customer satisfaction."
